System

INTRODUCING THE VASOVISION ENDOSCOPIC VISUALIZATION SYSTEM

MAQUET Cardiovascular innovation delivers a new perspective on endoscopic vessel harvesting (EVH). The new VASOVISION Endoscopic Visualization System improves ergonomics in the operating room by providing crisp, clear views of the working tunnel.*

- Easy to use and lightweight
- Comfortable fit for any user
- Fingertip adjustments for image brightness and contrast
- Central viewing pane provides a wide field of view while enabling peripheral vision

*The VASOVISION Endoscopic Visualization System is not a replacement for full-size monitors; it is to be used in conjunction with existing monitors.

ENHANCE THE HARVESTING EXPERIENCE WITH CLEAR, CENTRALIZED VISUALIZATION

The latest advance in VASOVIEW technology, the VASOVISION Endoscopic Visualization System puts the endoscope image within the harvester's natural field of vision.

- Compatible with all MAQUET VASOVIEW systems
- Clear visualization of procedure
- Improved comfort and ergonomics during harvesting
- Enhanced and streamlined harvesting experience

The new VASOVISION Endoscopic Visualization System is part of the complete line of VASOVIEW products. With over 1 million procedures performed to date, VASOVIEW represents the MAQUET Cardiovascular commitment to procedural excellence, and has helped to make EVH the standard of care.

VASOVISION
Endoscopic
Visualization
System Kit
includes
1) USB cable
and USB charger,
